

Vission

Universal Thumb Splint

Patterned to offer the perfect fit

Our Vission Thumb Splint is patterned to fit the anatomy of either the right or left hand comfortably. The brace stabilizes the CMC and MP joints of the thumb to promote healing.

- Proprietary memory foam laminate
- Fabric integrated D-rings eliminate twisting
- Easily shaped 1st MCP stay achieves desired positioning
- Anatomically contoured fit for stabilization
- Easy to locate contrasting color D-rings
